

# CUMULATIVE INDEX 1997

## Volume 24

---

|           |   |
|-----------|---|
| March     | INFECTIONS IN PERINATOLOGY, pages 1-290   |
| June      | PERINATAL CARE FOR CHRONIC MATERNAL CONDITIONS, pages 291-529                       |
| September | NEUROLOGIC DISORDERS IN THE NEWBORN, PART I: CEREBROVASCULAR DISEASE, pages 531-733 |
| December  | NEUROLOGIC DISORDERS IN THE NEWBORN, PART II, pages 735-906                         |

---

*Note:* Page numbers of article titles are in **boldface** type

- Abortion, recurrent, in antiphospholipid syndrome, 300-302  
 risk of, after fertility treatments, 322-323  
   in radiation therapy, 375  
   in systemic lupus erythematosus, 295-296  
 spontaneous, in sexually transmitted disease, 24-25
- N-Acetylaspartate metabolism, magnetic resonance spectroscopy of, 704-705
- N-Acetyl-aspartyl-glutamate, magnetic resonance spectroscopy of, 705
- Acetylcholine receptor antibodies, in neonatal myasthenia, 831
- Acid maltase deficiency, cardiac and neurologic manifestations of, 818  
 myopathies in, 839-840
- Acid-base status, versus mean oxygen saturation, at birth, 558
- Acidemias, organic, encephalopathy in, 780-781
- Acidosis, in asphyxia, 608  
   lactic, encephalopathy in, 782-783
- Acquired immunodeficiency infection. *See Human immunodeficiency virus infection.*
- Activity, in pregnancy, restriction of, in hypertension, 401  
   versus caloric cost, 435-436
- Acyclovir, in herpes simplex virus infections, in neonates, 272-275, 791  
   in pregnancy, 142-144, 269-271  
   in varicella zoster virus infections, 195, 277-278, 794
- Acylcarnitine measurement, in inborn errors of metabolism, 776
- Acyl-CoA dehydrogenases, deficiencies of, encephalopathy in, 781-782, 817-818
- Adenosine, in hypoxic-ischemic brain injury prevention, 637
- Adenoviral infections, of central nervous system, 796
- $\beta$ -Adrenergic blocking agents, in hypertension, in pregnancy, 398-399  
   in Marfan syndrome, in pregnancy, 458
- Age factors, in pregnancy, 335-338
- AIDS. *See Human immunodeficiency virus infection.*
- Allergy. *See also Asthma.*  
   pregnancy in, **407-432**  
     angioedema, 423-427  
     atopic dermatitis, 427-429  
     immunoglobulin E in, 407-408  
     rhinitis, 419-423  
     treatment of, 408-409  
     urticaria, 423-427
- Allopurinol, in hypoxic-ischemic brain injury prevention, 642-643
- Amikacin, in neonates, 254-255
- Amino acid(s), measurement of, in inborn errors of metabolism, 776-777  
   metabolism of, disorders of, encephalopathy in, 777-780  
   magnetic resonance spectroscopy in, 704-706
- 1-Amino-3,5-dimethyladamantine hydrochloride, in hypoxic-ischemic brain injury prevention, 638-639

- Aminoglycosides, in neonates, 254-255
- Amino-3-hydroxy-5-methyl-4-isoxazole propionic acid receptor, in hypoxic-ischemic brain injury, 629
- antagonists to, 639
- Aminophylline, cerebral blood flow effects of, 538
- 21-Aminosteroids, in hypoxic-ischemic brain injury prevention, 642
- Ammonia accumulation, in inborn errors of metabolism, 776-778
- Amniotic fluid, infections of. *See* Intra-amniotic infections.
- Ampicillin, in neonates, 261
- Anal sphincter injury, in labor and delivery, 357-358
- Anemia, in kidney disease, in pregnancy, 488
- Anencephaly, brain death determination in, 875, 877-878
- Anesthesia, local, inadvertent fetal injection of, seizures in, 763
- Angioedema, pregnancy in, 423-427
- Angiography, digital subtraction, of brain, 874-875
- Angiotensin-converting enzyme inhibitors, in hypertension, in pregnancy, 400
- Anterior horn cell disorders, 828-829
- Antibiotics, 251-266
- in breast milk, 252-253
- in group B streptococcal infections, 64-65
- prophylactic, 65-68
- in intra-amniotic infections, 47
- in neonates, aminoglycosides, 254-255
- aztreonam, 255
- carbapenems, 259
- cephalosporins, 258-259
- chloramphenicol, 259-260
- dosages for, 254, 256-257
- macrolides, 260
- metronidazole, 260-261
- penicillins, 261-262
- pharmacology of, 253-254
- vancomycin, 262-263
- in pregnancy, 251-252
- in premature rupture of membranes, 51-52
- in *Ureaplasma urealyticum* infections, in neonates, 98
- in pregnancy, 93-94
- Antibodies, in antiphospholipid syndrome, 302-304
- in systemic lupus erythematosus, neonatal lupus from, 297
- maternal-child transfer of, 507-509
- Anticardiolipin antibodies, in antiphospholipid syndrome, 302-304
- Anticoagulant, lupus, in antiphospholipid syndrome, 302-304
- Anticonvulsant agents, in hypoxic-ischemic brain injury prevention, 619-620, 636
- Antiepileptic drugs, in neonates, 766-767
- Antihistamines, in allergic reactions, in pregnancy, 426
- in rhinitis, in pregnancy, 421-422
- Antihypertensive agents, in pregnancy, 397-400, 402-403
- Antiphospholipid syndrome, pregnancy in, 300-310
- antibody testing in, 303-305
- complications of, 300-303
- diagnostic criteria for, 300
- loss of, 300-302
- obstetric management in, 307-310
- pathogenesis of, 305-307
- Antisera, in septic shock, 222
- Aortic disease, pregnancy in, 472-473
- Aortic valve disease, pregnancy in, 471
- Apnea testing, in brain death, 866-867
- Apoptosis, of neurons, in hypoxic-ischemic brain injury, 633
- Arginase deficiency, encephalopathy in, 777-778
- L-Arginine analogues, in hypoxic-ischemic brain injury prevention, 641
- Arginosuccinic acid lyase deficiency, encephalopathy in, 777-778
- Arginosuccinic acid synthetase deficiency, encephalopathy in, 777-778
- Arthrogryposis multiplex congenita, 841-842
- Asherman syndrome, pregnancy in, 334-335
- Asphyxia, causes of, 754
- cerebral blood flow after, 536-537
- cerebral blood flow-energy metabolism relationships in, 534
- cerebral energy metabolism after, 536-537
- cerebral palsy from, 609-611
- definition of, 607-608
- diagnosis of, 755-756
- hypoxic-ischemic brain injury in. *See* Hypoxic-ischemic brain injury.
- mortality in, 608
- seizures in, 754-756
- Aspirin, in antiphospholipid syndrome, 307-310
- in pre-eclampsia prevention, 403
- Assisted reproductive technologies, in Turner syndrome, 461
- multifetal reduction in, 331-332
- multiple gestations in, 323-332
- oocyte donation in, 335-338
- pregnancy outcome in, 329
- Asthma, pregnancy in, 409-419
- definition of, 409-410
- diagnosis of, 414, 416-417

- obstetric management in, 419
- pathophysiology of, 410
- pregnancy affected by, 412-414
- pregnancy effects on disease, 411-412
- symptoms and signs of, 409-410
- treatment of, 414-415, 418
- triggering factors for, 411
- Atopic dermatitis, pregnancy in, 427-429
- Atrial septal defect, pregnancy in, 469-471
- Auditory evoked potentials, in
  - extracorporeal membrane oxygenation, 659
- Auditory functional assessment, in brain
  - death determination, 865
- Autoantibodies, in antiphospholipid syndrome, 302-304
  - in systemic lupus erythematosus, neonatal lupus from, 297
- Autoimmune diseases, neonatal,
  - myasthenia gravis, 831
  - pregnancy in, antiphospholipid syndrome, 300-310
  - systemic lupus erythematosus, 292-299, 490-491
  - thrombocytopenia, 302
- Autoregulation, of cerebral blood flow,
  - blood pressure and, 534-535
  - perfusion pressure and, 532-533
- Avoidance therapy, for allergy, 408-409, 414
- Axonal neuropathy, 830
- Azithromycin, in neonates, 260
- Azlocillin, in neonates, 262
- Aztreonam, in neonates, 255
- B lymphocytes, function of, in neonates, 242
  - in fetal and neonatal defense system, 513, 515-516
- Bacillus Calmette-Guerin vaccination, in tuberculosis, 118-119, 236
- Bacteria, maternal-placental-fetal interactions with. *See Infections, maternal-placental-fetal interactions in.*
- Bacterial sepsis. *See Sepsis, neonatal.*
- Bacterial vaginosis, diagnosis of, 93
  - preterm birth and, 33-36
- Bacteriuria, in pregnancy, 348-349
- Barth syndrome, cardiac and neurologic manifestations of, 818
- Basal ganglia, disorders of, in metabolic disorders, magnetic resonance imaging of, 709
  - hypermyelination of, in hypoxic-ischemic brain injury, 612
- Beer-Lambert law, in near-infrared spectroscopy, 549
- Benign infantile myopathy, 840
- Benign neonatal sleep myoclonus, versus seizures, 737
- Benzodiazepines, in hypoxic-ischemic brain injury prevention, 640
  - in seizures, 766
- Beta blockers, in hypertension, in pregnancy, 398-399
  - in Marfan syndrome, in pregnancy, 458
- Bicuspid aortic valve, pregnancy in, 471-472
- Bilirubin excess, brain injury in, magnetic resonance spectroscopy of, 710-711
- Biopsy, cervical, in pregnancy, 371-373
- Birth trauma, 845-857
  - brachial plexus, 850-852
  - brain death in, 863
  - cranial, 846-848
  - cranial nerve, 848-849
  - incidence of, 845
  - phrenic nerve, 850
  - risk factors for, 845
  - scalp, 846-847
  - spinal cord, 849-850
- Bladder, changes of, in pregnancy, 344
  - fistulas of, in labor and delivery, 356
  - infections of, in pregnancy, 348
  - intrapartum injury of, 355-357
  - neck mobility of, after pregnancy, 361
  - neurogenic, pregnancy in, 360
  - surgery on, pregnancy after, 359
- Blood flow, cerebral. *See Cerebral blood flow.*
- uterine, fetal hypoxia and, 554-555
- Blood pressure, abnormal, cerebral blood flow in, 534-535
  - intraventricular hemorrhage in, 590-591
- control of, in hypoxic-ischemic brain injury, 618-619
- measurement of, in pregnancy, 392-393
- of children, versus maternal nutrition, 442
- systolic, in extracorporeal membrane oxygenation, versus sequelae, 665
- Blood-oxygenation-level-dependent (BOLD) contrast method, in magnetic resonance imaging, 697
- Botulism, infantile, 832-833
- Brachial plexus injury, in cardiac surgery, 815
  - in labor and delivery, 850-852
- Brain, blood flow in. *See Cerebral blood flow.*
- dysgenesis of, in cardiac disease, 816
- injury of. *See also Neurologic disorders.*
- hypoxic-ischemic. *See Hypoxic-ischemic brain injury.*
- in extracorporeal membrane oxygenation. *See Extracorporeal membrane oxygenation.*
- in premature infants, 567-587
- in hydrocephalus, 600-602

Brain (*Continued*)

- in periventricular hemorrhagic infarction, 568-574
- in periventricular leukomalacia, 574-582
  - neuropathology of, 567-568
- malformations of, seizures in, 759-760
- tumors of, in neurofibromatosis, 453-454
- vulnerability of, to hypoxic-ischemic injury, 633-635
- Brain death, 859-882
  - causes of, 863-864
  - cerebral blood flow assessment in, 871-874
    - digital subtraction angiography in, 874
    - Doppler studies in, 873
    - radioisotopic methods in, 872-873
  - cerebral metabolic activity assessment in, 875-876
  - electroencephalography in, 869-871
  - epidemiology of, 861-862
  - guidelines for, 860-861
  - historical aspects of, 860-861
  - in anencephaly, 875, 877-879
  - neurodiagnostic evaluation in, 868-872
  - neurologic examination in, 863, 865-868
    - apnea testing in, 866-867
    - duration of, 867-868
- Brainstem, disorders of, hypoxic-ischemic, 611
  - in metabolic disorders, magnetic resonance imaging of, 709
  - normal anatomy of, ultrasonography of, 679
- Brainstem auditory evoked potentials, in extracorporeal membrane oxygenation, 659
- Brainstem reflexes, evaluation of, in brain death, 863, 865
- Brainstem release phenomena, 749
- Branched-chain ketoacid dehydrogenase deficiency, in maple syrup urine disease, encephalopathy in, 778-779
- Breastfeeding, antibiotic excretion in, 252-253
  - hepatitis B and, 184-185
  - HIV transmission in, 164-165
  - in neonatal infection prevention, 12
  - tuberculosis and, 116, 122
- Bronchoconstriction, in asthma, 410
- Bronchodilators, in asthma, 414
- Bronchopulmonary dysplasia, extracorporeal membrane oxygenation in, versus neurodevelopmental outcome, 668
- Bypass, cardiopulmonary. *See* Cardiopulmonary bypass; Extracorporeal membrane oxygenation.
- C1 inhibitor, recombinant, in allergic reactions, in pregnancy, 426-427
- Calcium, accumulation of, in hypoxic-ischemic brain injury, 630, 634
  - prevention of, 637-642
  - imbalance of, seizures in, 756
  - supplementation with, in pregnancy, 440
- Calcium channel blockers, in hypoxic-ischemic brain injury prevention, 640
- Calculi, kidney, pregnancy in, 350
- Caloric cost, of pregnancy, 435-436
- Calpain antagonists, in hypoxic-ischemic brain injury prevention, 641
- Canavan's disease, encephalopathy in, magnetic resonance imaging of, 710
- Cancer, pregnancy in, cervical, 369-378
  - renal, 352
- Candidiasis, of central nervous system, 803-804
- Carbamyl phosphate synthetase deficiency, encephalopathy in, 777-778
- Carbapenems, in neonates, 259
- Carbon-13, in magnetic resonance spectroscopy, 699, 704-706
- Carbon dioxide, partial pressure of, in apnea testing for brain death, 866-867
  - in cerebral blood flow regulation, 532
  - in extracorporeal membrane oxygenation, versus sequelae, 666
- Cardiopulmonary bypass, neurologic injury in, intraoperative, 809-812
  - postoperative, 812-815
- Cardiorespiratory failure, extracorporeal oxygenation in. *See* Extracorporeal membrane oxygenation.
- Cardiovascular disorders, congenital. *See* Congenital cardiac disease.
  - in Marfan syndrome, 457-458
  - in Turner syndrome, 459
  - of adults, versus maternal nutrition, 442-443
- Carnitine, measurement of, in inborn errors of metabolism, 776
- Carnitine:palmitoyltransferase II deficiency, encephalopathy in, 782, 817-818
  - myopathy in, 840-841
- Carotid artery, right common, ligation and reconstruction of, in extracorporeal membrane oxygenation, 559-662
- Catalase, in hypoxic-ischemic brain injury prevention, 642
- CATCH22 syndrome, cardiac and neurologic manifestations of, 817
- CD40L deficiency, in neonates, 242-244
- Cefepime, in neonates, 259
- Cefotaxime, in neonates, 258
- Ceftazidime, in neonates, 258
- Central core disease, 837-838

- Central nervous system. *See also Brain.*  
 anomalies of, with muscular dystrophies, 834-836  
 infections of, 787-806  
   adenoviruses, 796  
   candidiasis, 803-804  
   *Citrobacter*, 799  
   cytomegalovirus, 788-789  
   enteroviruses, 794-795  
   herpes simplex virus, 132-133, 135, 789-791  
   human immunodeficiency virus, 795-796  
   listeriosis, 797-799  
   lymphocytic choriomeningitis virus, 796  
   *Mycoplasma hominis*, 801  
   parvovirus B19, 796  
   protozoan, 802-803  
   rubella, 796  
   seizures in, 757-759  
   streptococcus group B, 797  
   toxoplasmosis, 802  
   varicella zoster virus, 792-794  
   malformations of, seizures in, 759-760  
   tumors of, in neurofibromatosis, 453-454  
 Centronuclear/myotubular myopathy, 838  
 Cephalohematoma, 847  
 Cephalosporins, in neonates, 258-259  
 Cerebellum, ultrasonography of, in hemorrhage, 680-681  
   normal anatomy of, 679  
 Cerebral blood flow, 531-546  
   assessment of, in brain death determination, 871-874  
   energy metabolism and, 531, 534  
   in extracorporeal membrane oxygenation, 659-662  
   in fetus, during contractions, 552-555  
   in premature infants, periventricular leukomalacia and, 580-581  
   magnetic resonance imaging of, 697  
   pathophysiology of, 534-538  
     drug-induced, 537-538  
     high blood pressure, 535  
     hypoglycemia, 535-536  
     intracranial hemorrhage, 537  
     intraventricular hemorrhage, 590-596  
     low blood pressure, 534-535  
     periventricular leukomalacia, 580-581  
     postasphyxiated state, 536-537  
     seizures, 537  
   regulation of, 531-534  
     carbon dioxide in, 532  
     energy metabolism and, 531  
     neurogenic, 533-534  
     oxygen in, 532  
     perfusion pressure and, 532-533  
   research methods for, 538-542  
     cytochrome oxidase redox state, 541  
     Kety-Schmidt, 538  
     positron emission tomography, 539-540  
     quantitative measurements in, 540-541  
     radioactive isotopes in, 541-542  
     single photon emission tomography, 539  
     xenon-133 clearance, 538-539  
 Cerebral blood volume, measurement of, 540-541  
 Cerebral energy metabolism, after asphyxia, 536-537  
   cerebral blood flow and, 531, 534  
   failure of, in hypoxic-ischemic brain injury, 629, 634  
   in asphyxia, 608  
   magnetic resonance spectroscopy of, 703-706, 715-716  
   maintenance of, in hypoxic-ischemic brain injury, 635  
   measurement of, in brain death determination, 875  
   near-infrared spectroscopy in. *See Near-infrared spectroscopy.*  
   positron emission tomography in, 539-540  
 Cerebral hemisphere, right, injury of, in extracorporeal membrane oxygenation, 659-662  
 Cerebral hemorrhage, magnetic resonance imaging of, 711-712  
 Cerebral palsy, after extracorporeal membrane oxygenation, 662, 664-667  
   birth trauma and, 848  
   in hypoxic-ischemic brain injury, 609-611  
   in premature infants, clinical features of, 567-568  
   in periventricular hemorrhagic infarction, 568-574  
   in periventricular leukomalacia, 574-582  
 Cerebral perfusion, magnetic resonance imaging of, 697, 702-703  
 Cerebral perfusion pressure, diminished, hypoxic-ischemic brain injury in, 608, 628  
   reperfusion injury inhibition in, 642-643  
   in cerebral blood flow regulation, 532-533  
   maintenance of, in hypoxic-ischemic brain injury, 619, 632-633  
 Cerebral veins, ultrasonography of, 683-685  
 Cerebrospinal fluid analysis, in herpes simplex virus infections, 140  
 Cervical spine injury, in labor and delivery, 849-850  
 Cervix, cancer of, pregnancy in, 369-378

Cervix (*Continued*)

- biopsy in, 371-373
- conization in, 372-374
- delivery in, 377
- incidence of, 369
- invasive, 374
- prognosis for, 377
- screening for, 371-372
- staging of, 374-375
- treatment of, 375-376
- incompetent, pregnancy loss in, 334
- Cesarean section, genitourinary fistulas in, 356
- Chagas disease, of central nervous system, 803
- Chickenpox, 193-196, 277-278
  - central nervous system disorders in, 792-794
- Chlamydial infections, preterm birth and, 33
- Chloramphenicol, in neonates, 259-260
- Chlorpheniramine, in allergic reactions, in pregnancy, 421, 426
- Cholesterol levels, of adults, versus maternal nutrition, 442-443
- Choline signal, in magnetic resonance spectroscopy, 704
- Choline-related compounds, in hypoxic-ischemic brain injury, 620
- Chorioamnionitis. *See* Intra-amniotic infections.
- Chromosomal syndromes, cardiac and neurologic manifestations of, 816-817
- Chronic lung disease, in neonates, 95-97
- Ciprofloxacin, in neonates, 263
- Circulatory arrest, deep hypothermic, in cardiac surgery, neurologic injury from, 807, 809-815
- Citrobacter* infections, of central nervous system, 799
- Clarithromycin, in neonates, 260
- Clavicular fractures, in labor and delivery, 851
- Clindamycin, in neonates, 260
- Clomiphene citrate, in ovulation induction, 325-326, 330
- Clonic seizures, 736, 740
- Clonidine, in hypertension, in pregnancy, 398
- Coarctation, aortic, pregnancy in, 472-473
- Cocaine exposure, seizures in, 763
- Cognitive deficits, after extracorporeal membrane oxygenation, 664, 669-670
- Colonization, of reproductive tract, *Ureaplasma urealyticum* in, 92-93
- Color Doppler studies, of brain, 682-683
- Colposcopy, in pregnancy, 371-372
- Coma, in neonates, lack of criteria for, 865
- Computed tomography, in hypoxic-ischemic brain injury, 615
- Congenital cardiac disease (adult), in
  - neonatal lupus erythematosus, 297-298
  - labor and delivery in, 477-479
  - postpartum care in, 479
  - preconceptual evaluation of, 475-476
  - pregnancy in, 467-482
    - aortic disease, 472-473
    - complex cyanotic, 473-475
    - evaluation of, 468-469
    - management in, 476-477
    - normal physiologic changes and, 467-468
    - shunt lesions, 469-471
    - valvular lesions, 471-472
- Congenital cardiac disease (neonate), 807-826
  - incidence of, 807
  - neurologic injury in, acquired, 808
  - congenital, 815-818
  - future trends in, 818-819
  - intraoperative, 809-812
  - postoperative, 812-815
  - preoperative, 808-809
  - surgery in, brain injury in, 809-815
- Congenital diseases. *See* specific diseases.
- Congenital fiber type disproportion, 838-839
- Conization, cervical, in pregnancy, 372-374
- Consciousness alterations, in hypoxic-ischemic brain injury, 610-611
- Contractions, uterine, fetal cerebral hemodynamics and oxygenation during, 552-555
- Contrast agents, for ultrasonography, 688

- intrapartum, 355-357
- postpartum, 361
- Urethrocystometry, in pregnancy, 354
- Urethrotiginitis, in pregnancy, 350-351
- Urge incontinence, in pregnancy, 345-346
- Urinary diversion, pregnancy after, 360
- Urination, problems with, in pregnancy, 345-348
- Urodynamics, in pregnancy, 353-355
- Urogenital disorders, in pregnancy, 343-368
  - intrapartum, 355-358
  - normal physiologic changes and, 343-345
  - residual abnormalities after, 361-365
  - symptoms of, 345-348
  - types of, 348-353
  - urodynamic studies of, 353-355
  - with prior surgery, 358-362
- Urticaria, in pregnancy, 423-427
- Uterus, adhesions in (Asherman syndrome), pregnancy in, 334-335
- anomalies of, pregnancy in, 333-334
- contractions of, fetal cerebral hemodynamics and oxygenation during, 552-555
- dysfunction of, treatment for, pregnancy after, 332-335
- prolapse of, in pregnancy, 352-353, 358
- surgery on, pregnancy after, 358
- Vaccination, 231-249
  - advantages of, 232-233
  - for cytomegalovirus infections, 157-158, 241
  - for diarrheal diseases, 240-241
  - for enterovirus infections, 207-208
  - for group B streptococcal infections, 237
  - for *Haemophilus influenzae* type B infections, 238-240
  - for hepatitis B, 183-186, 234-235
  - for pneumococcal infections, 241
  - for polio, 207-208, 235-236
  - for respiratory syncytial virus infections, 238
  - for tetanus, 233-234
  - for tuberculosis, bacillus Calmette-Guerin in, 118-119, 236
  - for varicella, 196, 277
  - neonatal immunobiology and, 241-244
  - strategies for, 231-233
- Vacuum extraction, cranial injury from, 846-847
- Vaginal fistulas, in labor and delivery, 356
- Vaginosis, bacterial, diagnosis of, 93
- preterm birth and, 33-36
- Valvular heart disease, pregnancy in, 471-472
- Vancomycin, in neonates, 262-263
- Varicella zoster virus infections, 193-196, 277-278
- of central nervous system, 792-794
- Velo-cardio-facial syndrome, cardiac and neurologic manifestations of, 817

- Venous sinuses, ultrasonography of, 683-685
  - in thrombosis, 681-682
- Ventilation, mechanical, intraventricular hemorrhage and, 593-594
- Ventricles, defects of, pregnancy in, 474
- Ventricular septal defect, pregnancy in, 470
- Ventriculomegaly, after intraventricular hemorrhage, brain injury in, 600-602
  - management of, 598-600
  - pathogenesis of, 596-598
  - prevention of, 598-600
  - causes of, 596-597
- Ventriculoperitoneal shunt, in hydrocephalus, 600
- Very-long-chain acyl-CoA dehydrogenase deficiency, encephalopathy in, 781-782
- Vidarabine, in herpes simplex virus infections, in neonates, 272-275
- Viral infections. *See also* specific infections.
  - central nervous system, seizures in, 757-758
  - treatment of, 267-283
- Vitamin A, teratogenicity of, 437-439
- Vitamin B<sub>6</sub>, dependency on, seizures in, 761, 783
  - in pregnancy, 439
- Vitamin E, in hypoxic-ischemic brain injury prevention, 642
- Vitamin K, intraventricular hemorrhage and, 593
- Walker-Warburg syndrome, muscular dystrophy in, 834-835
- Warfarin, teratogenicity of, 476
- Watershed areas, of brain, vulnerability of, to hypoxic-ischemic injury, 634
- Weakness, in hypoxic-ischemic brain injury, 611
  - in neuromuscular disorders, 827
- Weight gain, in pregnancy, versus postpartum weight retention, 434-435
- Werdnig-Hoffman disease, 828-829
- Wheezing, in asthma, 409, 414
- White blood-cell transfusion, in neonatal sepsis, 217-218
- White matter, differentiation of, magnetic resonance imaging of, 699-702
  - disorders of, in metabolic disorders, magnetic resonance imaging of, 709
  - necrosis of, in periventricular hemorrhage, 568-569
  - in periventricular leukomalacia, 574-575, 581-582
- Xanthine oxidase inhibitors, in hypoxic-ischemic brain injury prevention, 642-643
- Xenon-133 clearance method, for cerebral blood flow measurement, 538-539
- 47,XXX syndrome, pregnancy in, 463
- Zellweger syndrome, encephalopathy in, 783-784
- Zidovudine, in HIV infection, prophylactic, 167-170, 280, 795-796
- Zoster, 194, 277
